Gigantic seven days**

SLAUGHTER Sale

of C. J. Braren will have ended. Have you been there? If not, don't fail to avail yourself of this great opportunity to buy nice, clean, merchandise at surprisingly low prices. We have enjoyed a good business but we need more. Come and see and be convinced that every article in the store is a scintillating bargain.

Carl J. Braren.

ALL ABOARD FOR WINNIPEG IN 1912

The visit of the big delegation from Winnipeg on Tuesday to boost the proposed Canadian Exposition and Solihit Centennial in 1912 was brief but pleasant. It was a distinguished group of men who alighted from the handsome C.P.R. special vestibuled train and they were accorded a right royal Claresholm greeting. There was only one thing wrong and that was the shortness of the stay. Their train was running on schedule time and the engineer reminded the travellers of the fact by vigorously blowing the whistle. Claresholm did its best to make the visiters feel at home and the visiters fully appreciated it. They will all have generous words to say of Claresholm. It wasn't one-sided courting by any means. When the party left Winnipeg they numbered 48 but this had grown to about sixty when they reached Claresholm. Even identals of friends of friends, M.P.s, editors and others were picked up enroute to give it an all-west character. The delegation are presenting the project of a big exhibition at Winnipeg and want the moral and active support of western Canada. If the reception at Claresholm is indicative of that received elsewhere they are getting what they are after in full measure. The train pulled in from Macleod at 10:30 and the visitors were met at the station by a group of representative business men and escorted to the I.O.O.F. hall where the speaking took place. Mr. W. A. Corwell, manager of the Bank of Commerce, resided in the absence of the mayor and welcomed the guests in a few brief sentences and ended his hearty applause from the visiters by assuring them that this district would support the big fair.

Mr. W. de C. O'Grady, of Winnipeg, a prominent financial agent, was the first speaker and outlined the great benefits such a fair would likely be in attracting population and capital to the west. Mr. O'Grady is not an orator but he had faith in his subject and told his story well. Mr. D. P. Kennedy, president of the board of trade of Wolsley, Sask., was next introduced, and supported the project from the standpoint of a business man living in Winnipeg. Before he was through the engineer began an orchestral accompaniment on the whistle and the proceedings had a merry air.

Mr. R. L. Walsh, president of the Claresholm board of trade, after a brief word of welcome presented two resolutions. The first one outlined the objects of the fair and endorsed the proposal. It was moved by Councillor N. Hudson and seconded by Mr. W. L. Lindsay and carried with hearty applause.

The second resolution authorized the Mayor and president of the board of trade to organize a Claresholm committee to further the project in this district. This was moved by Mr. Carl Braren and seconded by Mr. W. L. Lindsay and carried.

Mr. Sanford Evans, Mayor of Winnipeg, briefly expressed appreciation of the reception and the gathering ended with reciprocal cheers for Winnipeg and Claresholm. There was some regret at not being privileged to hear Mayor Evans and Hon. T. Mayne Daly and others but time was too brief. As the train pulled out the visiters were given a parting cheer.

OFF TO CARMANGAY

**Quite A Lively Summer for the
Building Trades Out East—
Some Who Are Going**

There is going to be quite an exodus to the proposed new town of Carmangay. Several business men have decided to start there and it will be a brisk summer for carpenters in the new town. Staples & Co. and the Pioneer Lumber Co. have already decided to start lumber yards and the supplies are going out from Claresholm. The buildings now in process of erection will equate on the prairie adjoining the townsite and will be completed over after the survey and auction sale. This condition of affairs is likely to lead to lively bidding for lots on the business street as so many will be looking for favorable sites. The result will be high prices. Messrs. Orie Taylor and Mr. Goodwill are going to start a big general store and have all the preliminary arrangements made. Mr. J. A. Smith is another Claresholm man who is going to establish a branch at Carmangay. There doesn't seem to be any doubt about there being a fairly good sized village by the Autumn. The erection of an elevator will be started as soon as the station yards are surveyed and a site located.

Caught On The Fly.

Hon. T. Mayne Daly—"I'm glad to hear that Claresholm is to have a modern water system. No town can develop satisfactorily without water and sewers. They are a paying investment."

H. A. Hardie, Toronto Type Founder, Winnipeg—"Claresholm never had a better more than to go in for a water service. It will greatly help the town."

P. W. Henshaw, financial agent, Winnipeg—"Claresholm will grow rapidly if it gets water and sewers. You can't develop without them. Fire protection will greatly benefit your merchants."

John Stodd, Winnipeg—"I'm sure one with a dollar invested here could lose no short sighted as to oppose your proposed improvements. It is in one's own best interests."

START NEW TOWN

**G.P.R. Will Establish Siding and
Station at Woodhouse—Mormons to Build Church**

Rice and Workman have decided 21 acres to the G.P.R. on their property five miles south of Claresholm and a switch is to be built there and station established. Mr. T. C. Milnes has let the contract for an elevator and the large quantity of grain previously shipped from Claresholm and Grainum will go from there this coming Autumn. The C.P.R. will start work on the track about the 15th of this month. The Mormons will commence the erection of a church right away and the tithing house will be removed from Claresholm to this new village. It is likely a store will be established also. At present this town in embryo wears the map name of "Woodhouse" but that may possibly be changed to Workman.

Stavely Badly Scorched

Stavely had a close escape from being wiped out on Tuesday evening. Brands hall, Benjamin's hardware store and Cooper and Simeon's real estate office were reduced to ashes. The fire broke out about 6:45 o'clock and raged for 3 hours one hundred men working like trippers subdued it. Fires caught on the hotel and other buildings and were only quenched by the utmost vigilance. The snow which was falling helped considerably in extinguishing sparks falling on adjoining buildings, and if it had not been for that, with the high wind that was blowing the flames might have been wiped out. The loss is roughly estimated at \$12,000 with insurance \$9,000.

Incidentally the fire favors a demand for the proposed Claresholm fire department.

Public Notice

The Claresholm Town Council offers \$8.00 per cord for field stone (Nigger heads) delivered at the country. Stone to be not larger than 8 and not less than 4 inches in diameter. By Order.

THE UP-TO-DATE STORE

R. L. WALSH

Robin Hood Flour

Rising Sun Flour

R. L. WALSH, Next Door Alberta Hotel Phone 16

Square Deal To Everyone

See here you fellows who have land for sale, list it with us, if you want it sold. We are not the oldest firm in town but you can't tell whether we are the best till you have tried us. A square deal is our motto and whenever you find us doing anything else, tell everybody you know about it, for if we are crooked we want it known. We never charge more than \$1.00 an acre commission and we do not take options on the best deals and make several dollars an acre with your money. You get the best we have got, as we get them. We believe in the Claresholm district. It is the garden spot of Alberta and we can sell your land if you let us try. We now represent the Loan department of the Great West Life Assurance Co. and we can fix you out with a loan if you need it. Mr. J. A. Smith will always be in the office to attend to business. Office in Vaughn's barber shop.

S. L. FRASER, Agent.

Big Circulation Campaign

- 247* This isn't the most favorable season for boosting circulation but the Review is after readers and will push for business all seasons.
- 248* WE THINK THE PAPER IS WORTH READING
- 249* If you want to for the sake of getting the local and district news take it until Dec. 31, 1909 for 45 cents.
- 250* If you would like to with some other paper take it with the weekly Winnipeg Free Press until Dec. 31, 1909, for one dollar. And that is not all with the Review and Free Press we give a copy of Ropp's New Commercial Calculator and short cut arithmetic.
- 251* This book sells at \$1 in all book stores. You can have it with the two papers for the cost of the book.
- 252* Still another if you prefer a provincial paper take the Review and the Weekly Alberta of Calgary until Dec. 31, 1909 for one dollar.
- 253* This offer expires May 31st. HURRY UP.

PEARLS IN AUSTRALIA

FISHING FOR GEMS IS A GROWING INDUSTRY.

Shells Rather Than Pearls are the Source of the Big Fortunes Amassed by Men Who Gather the Jewels Off the Coast of Queensland, the Malay and Japanese Do Most of the Diving.

Australasian pearl fishers make their fortunes more by the shells they gather than the pearls they find. The Australian pearl is not to be compared with the Oriental; it is too pale and lacks the beautiful sheen as a rule, of the latter. The Australian pearl-shell, on the other hand, is most valuable, while the Oriental shell is worthless, or practically so. Australian shells are large and thick, while Oriental shells are small and thin.

Thursday Island is the great center of the pearling industry in Australia, but this extends pretty well all round the coast of Queensland, from Port Laidlaw on the southeast to the Gulf of Carpentaria on the northwest. It is because of the mother-of-pearl fishing that the shells are so valuable. This industry is large and important, minute undulations of time and membrane. The rough outer coat of shell is scraped away, the mother-of-pearl is then ready to be cut into knife-blades, pen frames, and other articles.

All round Kur Peninsula is the center of the pearl industry. The Kur Peninsula is then ready to be cut into knife-blades, pen frames, and other articles. The Kur Peninsula is then ready to be cut into knife-blades, pen frames, and other articles. The Kur Peninsula is then ready to be cut into knife-blades, pen frames, and other articles.

Real shells are worth anything from \$1,000 a ton at Thursday Island, at Erromanga, in the Gulf of Carpentaria, and at other points, and it is sent to other countries. The value of the shells is estimated at \$1,000 a ton. The value of the shells is estimated at \$1,000 a ton. The value of the shells is estimated at \$1,000 a ton.

For the greater part the pearling is carried on by pearling companies that run fleets of boats, and employ many private individuals engaged in the industry. A fair amount of capital is required to start in the business. With that a man may buy a small schooner, lugger, or motor launch, and hire a Malay or Japanese diver, and a small crew of the diving is still done by Malay or Kanaka "boys" in the private garb of Natives, imitating the first from the side of a small boat, then swimming to the bottom of the sea, remaining under for a minute or a minute and a half.

An expert diver of the latter class brings up as much as \$750 a week, and \$100 on a ton of shell he brings up. There is not much danger from sharks, and the divers work together, and so the number of divers is not large. The divers work together, and so the number of divers is not large. The divers work together, and so the number of divers is not large.

Many white men who trust themselves alone in a boat with a Malay or Kanaka crew are never seen again. They disappear mysteriously, or are reported as having fallen overboard. The skipper and the mate, if there is one of a pearling lugger or yawl, has to be an expert diver, and may well be said to carry his life continually in his hand. He has to sleep on a hair-trigger, so to speak—to be ready for any emergency at any time.

One of the most common diseases of the pearl fishers is the "pearl fever," which is caused by the use of the "pearl fever" medicine. The "pearl fever" medicine is a powerful purgative, and is used to clear the system of the pearl fishers. The "pearl fever" medicine is a powerful purgative, and is used to clear the system of the pearl fishers.

The rarest and most valuable of all Australian pearls is the black pearl, and the most famous of these is the "Black Pearl" of the South Coast. The "Black Pearl" of the South Coast is the most famous of these. The "Black Pearl" of the South Coast is the most famous of these.

Five "Bobbies" a Week
The old-age pension officer was questioning the old woman with a zeal worthy of a nobby sailor.
"And now," he said, "we come to the important questions. Have you any receipt of parish relief?"
"None," answered the old woman.
"Fold again," the officer turned to the next question on the list.
"Tell me," he snarled, "have you any receipt of the help of the police?"
"No," she replied.
"Come on—come on!" he growled.
"Tell me the truth!"
"Well," she said, "I don't see any receipt of parish relief, but I don't deny it. Girls will be girls, you know, and in my young days I was a cook, but I'm not—prolly—he was a sergeant!"

Reading in Proportion
"To-morrow you may have something to read," said the doctor to the patient, who was now convalescing and correspondingly hungry.
The patient replied that there would be a restraint to his appetite, yet he hoped for a modest, steaming meal.
"Here is your dinner," said the doctor, and he gave the patient a spoonful of instant pudding; "but my father disapproved of that, everything else you do must be in the same proportion."

Two hours later the nurse heard a frantic call from the bed-chamber.
"I want to do some reading; bring me a postage stamp!"

The Important Point
Does a man or a woman "know" that is hardly worth worrying over. The important thing is, when she is asked to lay out a dress, that she can do so without a fuss.
"George (travelling)—Oh, Maud, my darling, what serpent has entered our heads to wreck our happiness? Speak, Maud, the truth!"
"Maud (tearfully)—Father has just and the mother."

His Day of Reckoning
As the stout man whose appetite had excited the envy of the other boarders began to leave the parlor, he looked down at his waistcoat. "I declare," he murmured, "it's getting tight!"
Editor—Will you explain to me why it is that your contributions are so late? The effect that I apply to language.

Poor Maid!
She wedded a half-mad fiddler, the poor, misguided maid.
And followed him in his wanderings, And sang to the airs he played.
They travelled the roads together, Through sunshine and through rain, Till he talked of his "art"—
And she replied for her part, And she feigned it to mean again.

Aimed to Please
Pompous Man—When you address me, I wish you would use one of the "Timid Man—Certainly! Which eye?"
That daylight business is going to look a little better. He said that. Well, there's 300 working days in a year, and there's 360.

How's This?
An offer of \$100,000 Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. C. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him.
Walding, Kinnison & Marvin, Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system. "Do the time cure." Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for Constipation.
A Peacemaker
"You're a liar!" exclaimed the first man.
"You're another!" retorted number two.
"Cal'm yourself, gentlemen," interposed the peacemaker. "It is perfectly clear that you are both right."
Philadelphia Inquirer.

SURE CURE FOR SKIN INJURIES & DISEASES.
Island Voles Stimulants
Ireland took place in a school in America—where Business Innocence comes from.
"Now, boy," said the teacher to the new pupil, "what is your name?"
"John Timmons," replied the youngster.
The teacher wrote his name down in the book before him.
"And where do you live, Johnny?" he asked.
"Snookish, Wash," replied the pupil.
"Look of perplexity across the teacher's face."
"What's that, you spell it, Johnny?" he asked.
"What's that, you spell it, Johnny?" he asked.
"What's that, you spell it, Johnny?" he asked.

DELICATE LITTLE CHILDREN MADE WELL AND STRONG
The little ones are frail. Their health on life is slight. A slight disorder may become serious if not promptly attended to. At the very first symptom of trouble Baby's Own Tablets should be given. This medicine promptly cures indigestion and all stomach troubles, constipation, diarrhoea, and brings the little teeth through painlessly. You can give the Tablets with equally good results to the new-born baby or well grown child.
Mrs. R. G. Fowell, Exbridge, Ont., writes: "I have used Baby's Own Tablets and find them a perfect medicine for stomach and bowel troubles." Sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

The Pain of Parasytomy
One of the Chinese modes of punishment is to place the culprit where a drop of water will fall on his head for hours, or even for days if he can stand it so long. The tortoise has been proved by an experience that Colonel Fred Burnaby had in Vienna several years ago. A school teacher told him that he would not be able to let a pint of water fall on his head for a day. Burnaby laughed at the very idea of his not being able to stand it, and the tortoise was the result.

Only Fair to Women
A written in an exchange says that every country woman is supposed to have a court house, and if not, other provisions are made for a "great room" for the country woman. The country woman is supposed to have a court house, and if not, other provisions are made for a "great room" for the country woman.

Minard's Liniment, Lumberton's Friend.
The artist was of the impressionist school. He had just given the last touches to a purple and blue canvas when he was interrupted by a visitor. "My dear," said he, "this is the land of the living and the dead, and I am not a painter. I am a man."

Culture Bewls Stairs
The girl had been three weeks in the employ of an artistic family, but her time had been by no means wasted. He had been three weeks in the employ of an artistic family, but her time had been by no means wasted.

Lesson Thine, Too

DELICATE LITTLE CHILDREN MADE WELL AND STRONG
The little ones are frail. Their health on life is slight. A slight disorder may become serious if not promptly attended to. At the very first symptom of trouble Baby's Own Tablets should be given. This medicine promptly cures indigestion and all stomach troubles, constipation, diarrhoea, and brings the little teeth through painlessly. You can give the Tablets with equally good results to the new-born baby or well grown child.
Mrs. R. G. Fowell, Exbridge, Ont., writes: "I have used Baby's Own Tablets and find them a perfect medicine for stomach and bowel troubles." Sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

The Pain of Parasytomy
One of the Chinese modes of punishment is to place the culprit where a drop of water will fall on his head for hours, or even for days if he can stand it so long. The tortoise has been proved by an experience that Colonel Fred Burnaby had in Vienna several years ago. A school teacher told him that he would not be able to let a pint of water fall on his head for a day. Burnaby laughed at the very idea of his not being able to stand it, and the tortoise was the result.

Only Fair to Women

THE REAL YELLOW PERIL

RESTRICTION OF IMMIGRATION STILL A NECESSITY

But as long as we Act With Fear, there is Nothing to Fear. From Oriental Immigration for Years to Come—Real Peril Said to be in the Possible Movement of American Capital to Asia.

Victoria—Hon. W. L. MacKenzie King, the Canadian premier at the recent opium conference held at Shanghai, has returned from China and India by the R.M. Empress of Japan. He has been looking into the question of Oriental immigration since leaving Shanghai.

He said:—To preserve the standards which our industrial classes have reached, restriction of immigration is an absolute necessity. This is recognized by the authorities across the Pacific hardly less than by ourselves, and as long as we act with foreboding and conservatism, the forces of eastern states will have to have nothing to fear from Oriental immigration for years to come.

"While in Japan I was invited by the foreign office to discuss the immigration question, and a frank exchange of views took place, but I had made up my mind to say, I cannot discuss this. Canada and the United States must rely upon the statement made eight weeks ago by Count Kamekura, Japan's foreign minister, who had prepared a speech, in which he announced that Japan would not permit strict immigration to across the Pacific."

The real peril so far as the Opium conference is concerned, lies not in the possible movement of capital from Asia to America—that can be regulated—but in the almost entire movement of capital from America to Asia. In the United States, the industrial possibilities are known and the industrial stability and security of investment is established.

Looking regarding the opium conference, he said it had strongly increased the sincerity of Canadians in realizing the cause, and urged upon all governments to take steps toward the limitation and export of opium and its alkaloids, which Canada and the United States have done.

Section in India

Victoria—Lord Frederick Hamilton, son of the Duke of Abercorn, and a prominent British diplomat, was yesterday, arrived by the Empress of Japan, returning from India. He attended his son's wedding to the daughter of the governor general, Earl of Athlone. Speaking in the Chamber, he said the sedition movement in India had been caused by the lack of the censorship of the press, which was a mistake in the movement and allowed the Bengalis to conduct their seditious broadcast. The leaders have lately adopted greater discretion in their section, and the officials are in a quandary.

"They can't arrest a gramophone you know. It is a mistake here to encourage, to say the least, the use of gramophone records against British rule. It is purely racial, brown against white. Bengalis are also spreading this kind of thing among the tribesmen being driven to the border. It is slower in spreading than it other ways would."

Speaking of Lord Kitchener, the retiring commander of the British army in India, Lord Hamilton said he was devastated. Kitchener was to become director general of the British forces in return to Egypt.

Startling Crime Statistics

Chicago—Figures of crime statistics caused by liquor were quoted by the Rev. E. L. Eaton, D.D., pastor of the Emanuel Methodist Episcopal church, of Evanston, at the Cook county W. C. T. U. convention in Mooshy church. He asserted that 2,500 babies were smothered to death annually by drunken parents, and that 1,600 wives were murdered by drunken husbands. "There are 600 other murders committed because of drink each year," he said. "Drunk makes 40,000 widows each year and kills 60,000 girls. Paupers to the number of 200,000 are caused by liquor annually, and in the same time there are 100,000 drunk murder victims."

New Alberta Coal Company

Montreal—It is stated here that E. B. Greenhalgh, head of Greenhalghs, limited, and director of the Trunk Pacific, will be head of the new \$50,000,000 Pacific Coast Coal Co., limited, a concern that will operate areas in Alberta, said to contain 800,000,000 tons of coal.

Another Asat for Canada

Ottawa—Dr. Ellis, of the Ottawa office, says New Brunswick oil shale is richer than Scottish shale, from which the standard oil company usually obtains 20 million gallons of oil and fifty thousand tons of sulphate of ammonia.

To Encourage Rifle Shooting

Ottawa—To encourage rifle shooting in Canada, the Canadian Rifle Association has decided to pay one-fourth of the railway fare for all competitors who attend the rifle meet in Ottawa.

Rutherford on Railway Board

Ottawa—The name of Veterinary Rutherford, D.V.M., has been considered as the most suitable successor to the late Hon. Greenway on the railway commission.

THE SUFFRAGETTE MOVEMENT

CAUSE MOVING TO BE GAINING Ground and Fair Sex Now Confident of Ultimate Victory

London—Whatever one may determine as sure indications of increase in sentiment, strength of organization and activity of campaign for suffrage, reports increased membership, increased activity and increased interest in the tolerance and consideration of the public. New friends in the United Kingdom are being made by the Queen of Norway has sent greetings to the suffragettes.

The Scandinavian countries are only in the lead in the movement. Finland has already granted full suffrage to women. Norway has full suffrage, with very slight priority qualifications. Iceland and Sweden have all the rights, except parliamentary vote, and the Swedish house of commons has unanimously passed a bill to grant parliamentary vote to women. While it was defeated in the upper house it only means a little delay until full suffrage comes to the women of that country. There are indications that the Swedish house of commons which are Hungary and Bohemia, that some new political rights will soon be granted to women.

The campaign in England is still maintained for years, in which it has manifested within the last three years, and it is only a question of time when the government will accede to the demand of women and grant parliamentary vote.

Natural Resources Commission

Ottawa—The government has a bill to create a permanent commission on conservation of the natural resources of Canada. This is given the name of the Natural Resources Commission. The minister of agriculture and the minister of the interior will be named at Washington, at which Canada was represented, had recommended the establishment of such a commission to look after the resources of the country. The commission is to be composed of thirty-two members and a chairman. Three of these will be appointed by the federal government. The remainder will be appointed by the provinces and the territories. There will be an office in Ottawa under the civil service, in charge of the secretary.

From Cattle to Wheat

Calgary—Brooks, 10 miles east of Calgary, once the headquarters for antelope hunting points, of the great live stock shipping point, having the most complete and largest stockyards in the west. It is now being converted into a wheat and grain elevator. At present over twenty grain elevators are being built at work yards in the city. The grain elevators of immigrants are unloading and shipping grain to the west. Every day loads of home-made wheat are being shipped. It is the gateway to the great irrigated lands where so much development is taking place.

Favor Cash Contribution

Victoria—B.C. delegation from the Navy league met Premier McCreery, and requested that he urge upon the government the necessity of making an immediate contribution in cash to the British Empire League, and further to pledge British Columbia to contribute a portion of such contribution. At the conclusion of the meeting it was arranged that the British Empire League should be given the right to use the name of the British Columbia leading the other provinces as well as the Navy league, and conditionally, to go as an offering from Canada to the imperial government.

Travelling to Northern Lands

Edmonton—There is a heavy truck of settlers through Edmonton, north-east to the Saddle Lake country and north-west to the Peace River valley. In one day forty persons, among whom were ten women, left on train for the Grand Prairie district. The train consisted of sixteen or twenty cars. The women are accompanied by their husbands. The outfit consists of tools, implements, food and household effects necessary to begin farm operations. Most of the people are from the west.

Australia and the Navy

Sydney, N. S. W.—The British navy is being made to remove the question of naval defence from the region of politics. The government has announced the address when parliament meets. The navy bill is being deferred until the conference with the imperial experts decides the best use of the resources of Australia can be put. The Herald says:—"We are not at all concerned with the political politeness, but explicit advice from the admiralty."

Chamberlain's Prophecy

Ottawa—The Hon. J. B. Chamberlain, member of the G. T. P., has arrived after a tour of inspection which has been extended to the coast. He is expected to be in the city for a few days. He is expected to be in the city for a few days. He is expected to be in the city for a few days.

Think Canada Too Strict

Bellefleur, Que.—Because the British government had complained to the Canadian government that there were too many deportations from Canada without cause, six English families have been allowed to remain. One of these families, however, will be deported after a year.

Australia Buys Aeroplanes

Australia—The Australian government has arranged for the purchase of six dirigibles and aeroplanes for the purpose of experimenting.

HAVE FAITH IN ALBERTA

ARE NOW BUYING LAND

As a Result of the Recent Visit of the Scotch Agricultural Commission, the Members Have Formed a Syndicate and Will Purchase, at Least 10,000 Acres of Land for Growing Wheat Only, Probably in Alberta

Winnipeg—Last summer the prime province of Western Canada was visited by the Scotch agricultural commission, the members of which were invited by the imperial government. The members were engaged in farming on a large scale in the old country, and they were specialists in the various branches of grain growing and stock raising. The instructions given them by the imperial government was to see as much possible of the west, and to make a full and complete report on the adaptability of the country for the production of all classes of crops and stock raising.

During the past week J. M. Holge, president of the Scotch Agricultural Commission, and one of the largest and most successful farmers in Perthshire, Scotland, returned to the west. He has been in the west for some time, and he has been in the west for some time, and he has been in the west for some time.

He has been in the west for some time, and he has been in the west for some time, and he has been in the west for some time. He has been in the west for some time, and he has been in the west for some time, and he has been in the west for some time.

He has been in the west for some time, and he has been in the west for some time, and he has been in the west for some time. He has been in the west for some time, and he has been in the west for some time, and he has been in the west for some time.

Subsidy Taken Off

Vancouver—The withdrawal of the subsidy from the Canadian and New Zealand governments, which was operating for the benefit of the British Columbia and Australia, has been taken off.

Many New Sunday Schools in West

Calgary—That the work of Presbytery in the West is being carried on in a most successful manner, is shown by the report of the Presbytery of the West. There are many new Sunday schools in the West, and the work is being carried on in a most successful manner.

Lisbon—12,000 Homeless

Lisbon—Twelve thousand persons are homeless in the earthquake zone of Lisbon. The earthquake has caused a great deal of damage to the city, and many persons are homeless.

The Dead at Adana

Adana, Asiatic Turkey—The conditions in the city of Adana are very bad. The conditions are very bad, and many persons are dead.

Calgary Brigade Camp

Calgary—It is estimated that 1,000 will be at the brigade camp held here for the purpose of the army. The army is expected to be in the city for a few days.

Alberta Agricultural Fairs

Edmonton—Over forty fairs will be held in Alberta during the summer and fall. This is a considerable increase over the number held last year.

Calgary Bids Given Life Saving Medal

Paris—The French government has awarded a life saving medal to a Canadian who saved the lives of several persons. The medal was awarded to the Canadian who saved the lives of several persons.

Australia Buys Aeroplanes

Australia—The Australian government has arranged for the purchase of six dirigibles and aeroplanes for the purpose of experimenting.

ALBERTA FOREST LAND

Important Statement Made Before Forestry and Waterways Commission

Ottawa—Superintendent Campbell, of the Dominion forestry branch, told the forestry and waterways commission that the belt of land from the international boundary to the Crown's West line, and from the Crown's West line to the Crown's East line, is fifty miles eastward, should be reserved and protected. He said that there are about twenty million acres available for the development of the forest industry in the west. He said that there are a million feet of lumber per acre, or the product of 5,000,000 acres in the present year is required.

Canadian Coal Fisheries

Vancouver—H. H. Watson, who has been in Ottawa on Vancouver harbor affairs, returned recently and said:—"We are assured that the Dominion government is quite alive regarding the importance of halibut fisheries in the North Pacific, and that a protective service to keep poachers outside the three-mile limit will be given as soon as possible."

He said that the Dominion government is quite alive regarding the importance of halibut fisheries in the North Pacific, and that a protective service to keep poachers outside the three-mile limit will be given as soon as possible.

Melodies Due to Wireless

London—The wireless, as a result of a report of the British navy, has caused the Deserter's organ to be played. The Deserter's organ is a melody which is played by the British navy. It is a melody which is played by the British navy.

Imperial Vets Will Keep on Pressing

Winnipeg—At the general meeting of the Imperial Veterans Association, the members decided to keep on pressing for the recognition of the Imperial Veterans Association. The members decided to keep on pressing for the recognition of the Imperial Veterans Association.

T. W. QUAYLE, Editor.

THE COAL STRIKE

The frequency of the disputes in the Southern Alberta coal fields indicate that either the operators and miners are not willing to agree, or that some busy agitators are showing their qualifications for office by leading discontent. If only the operators and miners were the sufferers it might be well to let them fight it out, and the best man win. But the interests affected are much larger and much more important than the main parties to the dispute and for that reason is the imperative duty of the government to take a hand in the scamp.

The coal fields belonged to the public in the first place, and are being exploited for the enrichment of a few. This favored few should therefore show some consideration for the general public.

The Lemieux Act is being battered in the strike. Sherman is laughing at it. He has always derided the act. He is justified in doing so, as long as the government allows him to hold it in contempt, as he does. In his public utterances Sherman sneers at the Lemieux Act. In his official acts he hides it. And worst of all the Lemieux government let him do it. The Review appreciates the official position of the government. If it proceeds against the miners for contempt of the terms of their award there will be a howl from one end of the country to the other among labor organizations that the government is trying to crush unionism in the interests of capital. If the government proceeds against the operators it will incur the enmity of a wealthy bunch who would ride roughshod over any party that dared to dare active opposition.

What then is the duty of the government?

To do the fair thing by the great public.

The government does not at present get the support of any of the parties in which the mines are situated. The government could get support by taking cognizance of the fact that there are besides mine operators and operatives in these ridings. The farmers outnumber the miners ten to one, and their interests are overlooked for fear of offending a bunch of greedy operators, or mischievous agitators. This country is being hounded by the Minister of Labor is probably awarded. There were contracts for breaking thousands of acres of land in the Clareholm Grange district alone. This work is at a standstill because there is no supply of coal. The harvest of 1910 is as a consequence going to be many thousands bushels less than it otherwise would be. Beyond all this why should the people on these western prairies suffer because of disputes over "closed shops?"

It is up to the government to get busy. Either crush this dispute with the strong arm of authority, or develop a few coal mines for the benefit of the public and let Frank Sherman and the operators fight it to a finish. In the meantime the government should recognize the great democratic principle that the public is supreme.

SOME MORE EXAMPLES

"Shore putting it (waterworks), we have had a reduction of some 20 percent in our expenses, which makes the system practically self-supporting."

"This writes George Ballant, secretary-treasurer of the town of Cochrane, Manitoba, a place with 1200 population and a water-works system. Mr. Ballant's story is the same as that of the town clerk of Yorkton and gives further evidence of the immediate benefit of installing a fine system giving adequate fire protection.

And here's still another.

"The fire insurance underwriters gave us a 10 per cent reduction after the waterworks system was finished and inspected by them and it has certainly acted splendidly holding two fires in the buildings in which they originated."

This is from Geo. S. Page, secretary-treasurer of the town of Moonbeam, Saskatchewan, a town of 1500 population.

Yorkton reduction in rates was 20 to 35 per cent.

Will the man who is afraid of increased taxation say that the reduction in fire insurance rates does not considerably more than offset the increase in taxes. There is more than the taxation view of the waterworks issue.

GOOD FOR NANTON

Its contagious. Just read this from the Nanton News and ponder over Clareholms duty in the question of waterworks. The News announces that Nanton is to establish a gravity water system and explains that:

"The source of supply recommended are the springs on the government watering reserve at the Pease River and Ward ranch. To secure these it will be necessary to apply to the Dominion government. These springs are six miles from the town being five miles west and a mile and a half south. There are three hundred feet higher than the town, and would supply a city of 10,000 people, relieving the daily requirements of 75 gallons for each inhabitant. Samples of the water have been sent to Edmonton for analysis."

Check up the weather man sometimes sets his teeth. He shows works meet for reputation. There'll be a bumper harvest.

The present type of criticism is the most who lacks faith in his town. This applies no matter how much real estate, or greenbacks he may have accumulated.

The month of April started well but ended badly so far as the town man is concerned but the farmer welcomed the snow and he is the boss of the diggings hereabouts.

Cambridge is getting a lot of free advertising these days and it's interesting to watch the beginning of a new western town. In this case the banker is the pioneer.

If the opponents of the proposed water system could only show a better way they would be some force in the objections. The better way, if it exists, is being kept dark.

How do the mail order people work their trade. By listing the people who have their wares through the newspapers. They spend liberally for publicity space and reap a golden harvest.

The people of Winnipeg wait westward to seek the Dominion government to give a million or so to the proposed 38,000 acre national exhibition. This is a modest proposal and Winnipeg is not complaining. You can no more do the maximum business without advertising than you can sell sand for sugar. The people like to see a genuine hustler after trade and show practical appreciation.

The increased tax on dogs will prove the devotion of the owner of the canine. It should also rid the town of a bunch of scoundrels not worthy of devotion. There will be a much business at dog-gate yard in the next few weeks.

One of the best ways to kill the mail order trade is for the home merchant to meet the outside competition by prices and advertise the fact. The home man has the advantage in the press rates and should be able to reduce this trade to a minimum.

The Committee in charge of the preliminary arrangements for the big Dominion day celebration at Clareholm have started work and are mapping out a program designed to give the town one of the biggest days yet known. There will be a big race night in the afternoon and suitably attractive prizes hung up to bring in the best time horse up to the postmen.

Reps. Commercial Calculator which the Review is giving to promote with this paper and the Weekly Winnipeg Free Press is a handsome gift given up back with pocket pal which the Review is giving to the owners of farmers, mechanics, professional men, bankers, manufacturers, dealers in grain, produce, meat, etc. It is a handy new watch or a vast pocket dictionary. This is the best premium offer ever heard of in Southern Alberta.

Gilt Edged Chance

To Make Money

Arrow Lake Fruit Lands
Are a better investment than
C.P.R. or any other railway or
Industrial Stocks.

Purchasers all delighted with investments and are busy helping boost the district. Quicker and larger returns on a modest investment than can be made in any other line. Arrow Lakes district is ideal for fruit growing. Climate ideal, soil rich in productivity quality. Market assisted and transportation facilities satisfactory.

Our Mr. McCandlish at Clareholm can give you a wealth of information and would be pleased to do so. Arrange to see him. Here is an unsolicited testimony from a former well known Clareholm man. Read it and absorb the moral. This successful man has tried both wheat and fruit lands. These what he has to say about Arrow Lakes land after a visit to the American fruit districts.

Dear Mr. Freeman,
This is a fine fruit country, a valley which is well suited for fruit. The elevation is 5000 feet above sea level. They have to irrigate and water costs \$3.00 per acre per year.

The climate is 5000 feet above sea level. They have to irrigate and water costs \$3.00 per acre per year.

There is one reason why Arrow Lakes district should not bring as much in times these hard.

I am satisfied that we can produce as much and as good fruit there and without irrigation. Burton Valley will be another Paradise if the people who are interested in land there do their part."

SIGNED: Yours truly, R. W. WALLACE.

TESKEY & ROBERTSON Claresholm

CHIEFLY CLARESHOLM

Mr. James Haslam spent Sunday in Lethbridge.

Mr. R. A. Gillies of Raymond spent Sunday in Claresholm.

Detective Piper of the R.N.W.M.P. was in town Tuesday.

Mr. and Mrs. Shewen of Toronto are the guests of Mr. and Mrs. Doyle.

Mr. J. M. Glendinning M. P. P. Xanton was in town over Sunday a guest at the Queens.

Mr. W. J. Boddy of the C. P. R. Audit office paid Claresholm an official visit this week.

Miss Stella Priest has returned from Lethbridge where she spent two months in the hospital. Miss Greaves friends will be pleased to learn that she is much improved.

Mr. J. Miller has resigned as caretaker of the Public School and Mr. Wilfrid Bertrand has been appointed to succeed him.

Mr. Wright who is to represent the Vancouver Milling and Elevator Co. here has taken Mr. Genuvalds house on Knib Hill.

Mr. A. B. H. Sills was a sufferer for a few days from the effect of fumes of gasoline received while working at a closed building.

Mr. A. B. Macdonald and son Allan, who are in town Tuesday, Mr. Macdonald is suffering from bad cut in the hand the result of contact with a piece of tin.

There were five cars of settlers unloaded here this week. The new settlers are R. A. Routh, Albert Vahke, Knute Donary, A. A. Anderson, M. P. Sealard all from Erickson, Minn.

Peter Lund, President of the Claresholm Lumber and Grain Company, was in town Friday. Mr. Lund was on his return from Chicago where he disposed his large saw mill interest in British Columbia.

The Town Of Noble

C.P.R. Buys a Townsite and Names It after Popular Claresholm Man.

The town of "Noble" is the latest. Mr. C. S. Noble has sold the C.P.R. land in 11-13-23 on the Carmangy-Lethbridge line and it will be surveyed at once as a townsite and will be on the market shortly. The C.P.R. have honored Mr. Noble by naming the town after him and it is understood he will build a fine home in the new town. He has sold his Claresholm house to his partner, Mr. Milnes. The town of Noble to be, is well situated to become an important point. It is expected that an elevator will be built this summer and the C.P.R. will haul grain from there this fall.

Mr. John Dow of Weyburn Sask. has written Mr. C.W. James, secretary of the board of trade asking what openings there are for business here.

Mr. Harold Brown has been appointed agent for the Calgary Steam Laundry and anyone wishing to have their laundry done at Calgary would do well to consult "Pat". He will look after the expressing of the laundry and its return.

The school board has received a reply from the Deputy Minister of Education in reference to the complaint against the Ambulance Association of Alberta. The reply justifies the action of the board and intimates that the trustees would be perfectly justified in going outside the province for an Architect.

Mr. T. G. Hayden, of Topeka Kansas, is negotiating for four sections of land in the Claresholm locality. He is with Mr. N. Holmes, Mr. Brown's partner from Vids, who is greatly interested in the project. Mr. Hayden is the brother of the late Mr. Hayden of Topeka.

Mr. W. W. Brown of Vids arrived in town on Monday to accept a position with Mr. N. Holmes. Mr. Brown's removal from Vids was greatly regretted by the Vids people. He was an active worker in the Presbyterian church and an exemplary citizen. He will take up residence in Claresholm with his wife and a modern Claresholm.

Mr. E. W. Frost, Mayor of Claresholm and Mrs. Frost and little son left for the East Saturday night. Mrs. Frost went to her parental home in Hanover, Ont., and will be joined later by the Mayor, who is on a business trip to Chicago and other points. His Worship will return in time to vote for waterworks and a modern Claresholm.

The closing dance of the season under the auspices of the Claresholm Quadrille club was a complete success. About twenty couples were present and it was a decidedly pleasant evening. The season has been a gratifying success largely to the energetic committee of which special mention should be made Mrs. McLean and Mrs. R. C. Moffatt, and also the general manager Mr. Charles James.

Mr. Arthur Dunbar, for some years connected with the Union bank has bought the stock and business of Mr. H. B. Tilden of the Claresholm Furniture Store. Mr. Dunbar comes to Claresholm with a high reputation as a business man and doubtless under his aggressive up-to-date methods the business will expand and grow. Mr. Dunbar was until recently manager of the Union bank at Mossburn. He makes a welcome addition to the business fraternity of busy Claresholm.

Mr. A. Stueck of London, Eng. who has spent a year with his son, Mr. L. A. Stueck on the farm in the Elbow district left for the old home on Saturday to join his family. Mr. Stueck has procured a large number of excellent photographs designed to show Southern Alberta in good light and will have slides made of them to use in England. Mr. Stueck is a Frenchman who has lived in London for many years following the teaching profession. He is a man of culture and will tell a good story of this district in the homeland.

Thomas Beatty, 4 miles north, was charged by Inspector Canine, R. N. W. M. P. with entering a premises and allowing it to escape control to the detriment and destruction of surrounding property. Mr. Fred Langenscheidt, Mr. Beatty and after the evidence was in the court dismissed the charge as the prosecution failed to show that Mr. Beatty did not exercise the utmost vigilance, and a most notable point failed to prove that Mr. Beatty was the originator of the fire. All the witnesses testified that Mr. Beatty did his best to put the fire out.

BUSINESS GETTERS

FOR SALE OR RENT—A 6 room house on lot 90x140, on 3rd Ave. Second house west of fire hall. Enquire of Mrs. McCallum first door west of fire hall. Mrs. Day.

Furniture Store Changes Hands

Arthur Dunbar, successor to H. B. Tilden, formerly the Claresholm Furniture Co.

I beg to announce to the good citizens of Claresholm and vicinity that I have bought out the furniture business of Mr. H. B. Tilden.

My constant care will be to maintain at all times a thoroughly up-to-date stock, of good furniture only, that will meet the requirements of the very best, the most comfortable, the daintiest, as well as the most modest and humble homes in this progressive Claresholm district. I have ordered a full carload of bright new and modern furniture of many different kinds, forms and styles which should add greatly to the selection of the present well assorted stock, making it one of the largest and best assortments in the province of Alberta. Whether or not you have immediate requirements in the line of furniture I would invite you to come in and see what I have, if you do not want to buy today I know full well you will some other time. Mr. H. B. Tilden will remain with me in the meantime to meet and serve the many good customers of this already popular store.

Public Notice

All citizens are notified that all lanes, alleys, and yards, and other premises must be thoroughly cleaned under the terms of the Provincial Health Ordinance by May 15th. No let to do so will be followed by enforcement of the law. W. F. Wallwin M. D. Medical Health Officer.

The necessity of a health by-law will be determined by Dr. Wallwin, medical health officer. The council thought that he was the man to look into that problem.

Communications of a satisfactory character were read from Mac & James, bond brokers, Regina, and the waterworks and light by-laws will now be ready for publication.

The water by-law calls for \$56,000 and the electric light \$20,000.

There was considerable discussion as to the employment of an engineer to supervise the construction of the waterworks and electric plant and after the question was thoroughly thrashed out it was decided to give P. Turner Bond of Calgary the contract at \$3,000. Mr. Turner Bond will not only supervise the waterworks construction but also civil engineering for the period and prepare plans for streets. The choice was between Mr. Arnold of Lethbridge but there was some doubt as to Mr. Arnold's fitness to give such a large sum of money to his fellow citizen who is in business.

BIG TAX ON DOGS

Council Passes New By-law—Will Engage P. Turner Bond for The Waterworks

It is going to cost money to keep a dog in Claresholm.

The town council has passed a by-law prepared by Tom Schiller, Esq., which imposes a tax of \$2 on each dog over six months of age.

The tax is levied on the owner of the dog, and the dog must be licensed by the owner.

The tax is levied on the owner of the dog, and the dog must be licensed by the owner.

The town being without a license inspector Mr. J. E. Edwards was appointed to this office to be included in his duties as policeman.

The R.N.W.M.P. stopped the town from taking up before the town council the old cemetery and the work has been delayed pending permission from the Attorney General. The town is not inconvenienced but private owners of the lots sold in the cemetery subdivision are.

Councillor Miller suggested a scheme for beautifying the new cemetery and to use 4 to 8 inches in diameter, to be used to ornament the drives and walks. Any farmer who would like to earn his expenses into town has only to fill his wagon with stones of the required size and he will be paid \$8 a ton for them. An official advertisement appears in another column. The fire chief put in an application for a dozen fire coats and helmets and the committee will report after consideration.

Bills totalling \$771.18 were ordered to be paid.

Mayor Frost has gone out on a trip which will extend over two or three weeks and Councillor Broderick will be acting mayor during his absence.

Notice to Creditors

In the matter of the estate of Palmer Hiram Averill, late of the town of Claresholm, deceased.

Notice is hereby given that all persons having any claim or demands against the late Palmer Hiram Averill, who died on or about the 24th day of February, 1908, at the city of Brandon in the province of Manitoba, are required to on or before the 28th day of May, 1909, to send by post prepaid to the Trusts and Guarantee Company, Limited at Calgary, the province of Alberta, Administrator of the estate of the said Palmer Hiram Averill, or to deliver to the undersigned solicitors for the said company their names and addresses and full particulars of their claims in writing and a statement of their accounts and the nature of the securities if any held by them, and such statement shall be verified by statutory declaration of the claimant or his agent.

And take notice that after the 28th day of May, 1909, the said Trusts and Guarantee Company, Limited, will proceed to distribute the assets of the said deceased amongst the persons entitled thereto having regard only to the claims of which it shall then have had notice, and that the said Trusts and Guarantee Company, Limited, will not be liable for the said assets or any part thereof to any person of whose claim it shall not then have received notice.

Dated at Metchosin this 28th day of April, 1909.

The Trusts and Guarantee Company, Limited. A.G. Ross, Manager. McKendrick, McDonald & Watt, Solicitors for the said Company.

NEW DRAY

Having started in the business for myself I respectfully solicit a share of your patronage and will do my best to give satisfaction. 1 1 1

Claresholm, Alta.

Cream Separators

Don't buy a cream separator without being sure you KNOW what you are doing.

Making a mistake in buying a cream separator means a great deal—it means waste time and butter fat takes a day, every day in the year, if you get the wrong machine—until you "scrap" the machine itself.

More than 15,000 users who had made such a mistake replaced their "mistake" machines with DE LAVAL separators during the year 1908.

They had probably wasted Five Million Dollars worth of investment, labor and butter meanwhile.

If you feel inclined to buy some other make of separator by all means do so, if you can find any apparently good reason for it.

BUT why not TRY a DE LAVAL machine beside the other machine for ONE WEEK before you actually contract to buy it? Simply SEE the comparative operation and comparative results and examine the comparative construction.

That's a proposition open to every intending separator buyer. Any DE LAVAL agent will carry it out. WHY not avail of it and KNOW what you are doing before making this very important investment.

Don't let any alluring "catalogue horse" literature or clever talking about wheedle you into buying any other separator without FIRST actually TRYING it alongside a DE LAVAL.

In other words, buy your separator intelligently and knowingly and not on blind faith in anybody's representations.

T. M. Haig is the Claresholm agent and will be pleased to demonstrate the superiority of the DE LAVAL separator.

Mr. Haig also asks the public to call at the Claresholm Made Soap, or Mason and Fish Pans and Organs, all small musical goods. Edison phonographs with new records every month. Books and stationery, Davis sewing machines and a large assortment of wall paper at Calgary prices.

T. M. HAIG

Third Ave.

FARMERS.

WHAT'S THE USE of making two or more trips around the field to plow and harrow, when you can do both operations at once by attaching

The use of the attachment creates a dust mulch on top several inches deep, thus breaking the capillary connection with the farmer soil below, stopping the evaporation and retaining the natural moisture of the ground until planting time.

FOR SALE BY CUMMING & LINDSAY, Claresholm

McKenzie's Pure Seeds

In Bulk Government Tested 50 Per Cent Pure

Seeds in endless varieties in Garden, Flowers and Grass which will give you a fine crop. So you can't afford to mail order and call in and see what you are buying.
